

HoloDisplays Retail Price Guide

Low Profile Frame

Can be used for front or rear projection installations

All HoloDisplay screen types.

Screens can be cut to shapes without damage to optical performance.

Low profile frame comes with options for cable hanging kit or wall mount brackets.

Low profile frame is factory installed onto the screen.

Low profile frame can be powder coated to match color of the screen surface for an additional charge of \$8.00 per linear foot.

Retail Price

Retail price is \$17.50 per linear foot. Cost Calculation: $2 \times \text{actual height and width of the screen in inches} \div 12 = \text{total linear feet of material} \times \$17.50 = \text{total price}$.
